

# Privacy Policy

## Introduction

Welcome to EyeFit ("we," "our," or "us"). We are committed to protecting your privacy. This Privacy Policy explains how we handle your information when you use our mobile application.

## Information We Collect

Your training data, including session results, statistics, and preferences, is stored locally on your device. We collect limited anonymous data through analytics services to improve app performance and user experience. We do not collect personally identifiable information such as your name, email, or location.

## Local Data Storage

The following data is stored locally on your device and is not transmitted to external servers:

- Training session results
- Performance statistics
- App preferences and settings
- Notification preferences

## Third-Party Services

We use the following third-party services:

**RevenueCat:** Processes in-app purchases and subscriptions. May collect anonymous transaction data as required for payment processing.

**Firebase Analytics (Google):** Collects anonymous usage data such as app opens, screen views, and training completion events. This helps us understand how the app is used and improve the experience.

**Firebase Crashlytics (Google):** Collects crash reports and diagnostic data when the app encounters errors. This helps us identify and fix bugs quickly.

These services may collect device identifiers, app usage patterns, and technical information. No personally identifiable information is shared with these services.

## Analytics

We use Firebase Analytics to collect anonymous usage data. This includes:

- App opens and session duration
- Screen views and navigation patterns
- Training mode usage and completion rates
- General device information (device type, OS version)

We do not track your location or collect any personally identifiable information. Analytics data is used solely to improve the app experience.

## Data Security

Your training data is stored locally on your device and its security depends on your device's security settings. We recommend using a passcode or biometric authentication.

Data transmitted to third-party services (Firebase, RevenueCat) is encrypted in transit and handled according to their respective security policies.

## Children's Privacy

Our app does not knowingly collect personal information from children under 13. The app is designed for general audiences. Analytics data collected is anonymous and not linked to individual users.

## Contact Us

If you have any questions about this Privacy Policy, please contact us through the App Store.
